# LAKSHMI NARAYANA PANDAGA

Sr. PRODUCT DESIGNER / UX STRATEGY & DESIGN SYSTEMS / AI-DRIVEN PRODUCT DESIGN

Louisville, KY | +1 502 530 3236 | uxln.me@gmail.com | uxln.me

## SUMMARY

Senior Product Designer and UX Strategist with 17+ years of experience designing user-centered digital products across **Healthcare, Financial Services, Enterprise SaaS, and E-commerce**. Expertise in end-to-end product design, UX strategy, product discovery, information architecture, interaction design, user research, usability testing, prototyping, and scalable design systems. Experienced in translating complex business requirements into intuitive B2B and B2C experiences while balancing user needs, business objectives, accessibility, and technical feasibility. Collaborates cross-functionally with Product, Engineering, and business stakeholders to validate design solutions and improve digital experiences. Brings front-end technology knowledge in HTML5, CSS3, JavaScript, Angular, and Spring Boot to support effective design-to-development handoff. Contributed to a **reported 96% increase** in conversion among health plan seekers through redesigned plan selection and comparison journeys.

## SELECTED IMPACT & STRENGTHS

- Led end-to-end UX/UI and product design across **Healthcare, Financial Services, Enterprise SaaS, and E-commerce**, translating complex business requirements into scalable, user-centered experiences.
- Redesigned **Medicare, Medicaid, and commercial health plan** selection and comparison journeys, contributing to a **reported 96% increase** in conversion among plan seekers.
- Defined user flows, information architecture, interaction patterns, wireframes, interactive prototypes, and high-fidelity UI designs for enterprise and customer-facing applications.
- Developed reusable UI patterns and component libraries to improve design consistency, accessibility, and scalability across digital platforms.
- Collaborated with Product, developers, and business stakeholders to align user needs, product requirements, technical feasibility, and business goals.

## CORE SKILLS

**Product Design** — Product Design, UX Strategy, Product Discovery, Product Requirements, Information Architecture, Interaction Design, User Flows, Journey Mapping, Responsive Design, Design Thinking.

**Research & Optimization** — User Research, User Interviews, Usability Testing, Design Validation, Competitive Analysis, Task Analysis, A/B Testing, Conversion Rate Optimization (CRO), Usability Metrics, Data-Driven Design.

**Design Systems & Accessibility** — Design Systems, Component Libraries, Reusable UI Components, Design Specifications, Design System Governance, WCAG/ADA Accessibility, Inclusive Design, Developer Handoff.

**AI & Emerging Workflows** — AI Product Design, Conversational UX, AI-Enabled Design Workflows, AI-Assisted Research, Rapid Prototyping.

**Tools** & **Technical** — Figma, FigJam, Sketch, Adobe Creative Suite, Jira, Confluence, Dovetail, UserZoom, HTML5, CSS3, JavaScript, jQuery, Bootstrap, Angular, Spring Boot.

## PROFESSIONAL EXPERIENCE

**Elevance Health** - ( Anthem )
Sr. Product Designer
**Feb 2026 - Present**
Louisville - KY

**Responsibilities:**

- Led end-to-end UX/UI and product design for **Healthcare platforms**, delivering intuitive, accessible, and scalable digital experiences for members and healthcare stakeholders.
- Designed member-facing experiences for health plan benefits, claims, eligibility, and healthcare navigation, simplifying complex workflows and improving usability.
- Translated business requirements, user needs, and stakeholder insights into user flows, information architecture, wireframes, interactive prototypes, and high-fidelity UI designs.
- Partnered with Product, Engineering, and business stakeholders to validate design solutions, address technical constraints, and deliver cohesive enterprise web experiences.
- Developed reusable UI patterns, component libraries, and design specifications to promote consistency, accessibility, and scalability across healthcare applications.
- Applied user-centered design, responsive design principles, and usability testing to identify friction points, streamline workflows, and enhance the member experience.

**Carelon Global Solutions**
Lead UX/UI Product Designer
**Apr 2020 - Jan 2026**
Hyderabad - TG

**Responsibilities:**

- Led end-to-end UX/UI design for **Medicare, Medicaid, and commercial health** plan experiences, translating complex healthcare requirements into user-centered digital journeys.
- Redesigned health plan selection and comparison journeys, contributing to a **reported 96% increase** in conversion among plan seekers.
- Collaborated with business stakeholders to understand user needs, clarify product requirements, and align design decisions with business goals.
- Created user flows, interaction models, wireframes, and design specifications while developing reusable UI patterns and a centralized design library to ensure consistency and scalability.
- Collaborated with dev teams to align UX/UI designs with enterprise applications built using Angular and Spring Boot, supported by AWS-hosted microservices for payment processing and compliance workflows.

**CompuGain Solutions**
Lead UX/UI Designer
**Jul 2017 - Apr 2020**
Hyderabad - TG

**Responsibilities:**

- Designed user experiences for Bing across multiple canvases and supported the development of new frameworks and experiences for different user segments.
- Created wireframes and interactive prototypes to explore design concepts, communicate interaction models, and support design validation.
- Designed dynamic, browser-compatible web experiences using jQuery, JavaScript, and Angular
- Designed responsive claims and eligibility applications, creating visual designs and reusable UI patterns using HTML5, CSS3, and Bootstrap, while collaborating with dev teams on Angular and Spring Boot applications deployed on AWS.

**Vertex Computer Systems** **Nov 2016 - Jul 2017**
Sr. UX/UI Designer Hyderabad - TG

**Responsibilities:**
- Collaborated with sales and business stakeholders to gather functional requirements and translate them into user flows, wireframes, and interface concepts.
- Created personas, user journeys, prototypes, visual designs, and presentation materials to communicate design solutions.
- Translated approved interface designs into responsive web pages using HTML5, CSS3, and Bootstrap, supporting collaboration between design and development.

**Smash Solutions** **Aug 2012 - Oct 2016**
Sr. UX/UI Product Designer Hyderabad - TG

**Responsibilities:**
- Designed interaction models and accessible interfaces for data-intensive, compliance-driven regulatory applications.
- Created end-to-end design deliverables, including wireframes, interactive prototypes, UI libraries, style guides, and reusable theme-based components.
- Established consistent visual patterns, color palettes, and reusable interface modules to support scalable product experiences.
- Collaborated with development teams to translate design specifications into responsive web interfaces using HTML5, CSS3, and Bootstrap.

**Pegasys soft** **Jun 2010 - Aug 2012**
Sr. Web Designer Hyderabad - TG

**Responsibilities:**
- I am doing a individual contributor role for the design related tasks
- Working with multiple projects whatever the pages or designs are required for the projects designs them with illustrator and Photoshop .
- Established scalable interaction patterns and responsive frameworks adopted across desktop and mobile by multiple product squads.
- Converting into HTML pages and handover to the Backend team and whenever the backend team are having issues with the design related issues or integrating jQuery plugins I will help them to solve the problems.

## EDUCATION

**Master's Degree (MS IT)** : William Carey University
**Bachelor's Degree (Commerce)** : Mats University
**Diploma in Multimedia** : Orbit Opel Multimedia Design for the 21st Century

## CERTIFICATIONS

**Century Don Norman** : Interaction Design Foundation
**Journey Mapping** : Interaction Design Foundation
